About Me

Passionate Web Developer with a strong focus on Front-End development. Highly skilled in JavaScript and React, utilizing these technologies to create and enhance engaging user experiences. My commitment to continuous learning and professional growth led me to collaborate with UNDP, where I successfully contributed to the development and deployment of a project. I stay up-to-date with the latest technologies, ensuring that I can consistently deliver innovative. Adept at multitasking and managing competing priorities.

Projects

Frontier Technology Radar for Disaster Risk Reduction (FTR4DRR) - DEMO

FTR4DRR is a project aimed at systematically tracking and comprehending frontier technologies during their development. It enables the categorization of technological solutions based on technology type, disaster/crisis type, and maturity level.

- Technologies: ReactJS, TypeScript, and SCSS.
- Collaborated with a team on improving and deploying the Radar Software.

Online Therapist - DEMO | CODE

Online Therapist project allows users to signup/login to buy therapy sessions.

- Technologies: Figma, Reactjs, Redux Toolkit, Firebase and Tailwind CSS.
- Led my Re-coded graduation project team, with responsibility of Redux Toolkit part.

Iconic Places (Istanbul) App - DEMO | CODE

"Iconic Places" is a user-friendly app that allows people to discover and share the most beautiful spots in the city.

- Technologies: Reactjs, Redux Toolkit, Firebase and Tailwind CSS, Leaflet Library, Nominatim API.

Tennis Club App - DEMO | CODE

Tennis Club: An app for users to sign up/login, book courts, find playing partners, access training sessions, and check calendar for each member and calendar for the club.

- Technologies: Nextjs 14 , Next-Auth 4, Server Actions, API Routes, MongoDB, FullCalendar API and CSS,

The Movie Database - DEMO | CODE

This project allows us to search for the newest Movies and actors from Movie Database (TMDB) which is a community-built movie and TV DB.

- Technologies: Vanilla JavaScript and Bootstrap.
- Practiced DOM manipulation and 3rd party APIs.
- led my team, assigned tasks and responsibilities to each team member.

Experience

Frontend Web Developer - UNDP (SDG AI LAB)

Oct 2021 - Jan 2022 / Fulltime (Volunteer)

- Improved the existing software (Digital Technologies Radar development) as measured by SDG AI Lab.
- Actively participated in code reviews, providing valuable suggestions to enhance the quality of the software.
- Accomplished deployment of the existing software measured by SDG AI Lab.
- Collaborated closely with the SDG AI Lab team to implement improvements.
- Actively contributed to team discussions and decision-making processes.

Master of Science in Computer Engineering – Bahçeşehir University

Feb 2020 – Jul 2022

- Specializations in Programming, Data Mining, Network Security, and Computer Vision.
- Strong course in AGILE Methodologies.

Bachelor of Science in Information Systems Engineering – Eastern Mediterranean University

Oct 2011– Jun 2016

- Specializations in Networking, Telecommunication and Programming.

Courses

JavaScript (The Complete Guide 2023) / 52.5 Hours – UDEMY – LINK: [Credential URL](#)

React (incl Hooks, React Router, Redux) / 48.5 Hours – UDEMY – LINK: [Credential URL](#)

Understanding TypeScript / 15 Hours – UDEMY – LINK: [Credential URL](#)

React & TypeScript – The Practical Guide / 7.5 Hours – UDEMY – LINK: [Credential URL](#)

Next.js & React – The Complete Guide / 25 Hours – UDEMY – LINK: [Credential URL](#)

React Native – The Practical Guide [2023] / 28.5 Hours – UDEMY – LINK: [Credential URL](#)

Technical Skills

Git

HTML

SCSS

SASS

Bootstrap

Tailwind

JavaScript

React.js

Redux

Next.js 14

TypeScript

Firebase

MongoDB

React-Native

Languages

- Arabic: *Native*
- English: *Fluent*
- Turkish: *intermediate*

Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking
- TeamWork
