About Me

Computer engineering master, specializing in Frontend (JavaScript, TypeScript, React.js, Next.js 14, etc.) creating great user experiences. Currently expanding my skills in Backend technologies (Node.js, Express.js) with the aim to become a Fullstack developer. I stay up-to-date with the latest technologies, ensuring that I can deliver innovative.

Education

Frontend Web Development – Re:Coded

ONLINE _ Sep 2022 -> Feb 2023

Re: Coded Immersive Bootcamps are highly competitive, with a 5% acceptance rate.

- Completing 5 months immersive Frontend Bootcamp, 300+ hours of curricula, +100 assignments, and projects.
- Technologies: HTML, CSS, JavaScript, React, Redux Toolkit.
- Working with various design teams to create products across industries.

Projects

Frontier Technology Radar for Disaster Risk Reduction (FTR4DRR) – DEMO

FTR4DRR is a project aimed at systematically tracking and comprehending frontier technologies during their development. It enables the categorization of technological solutions based on technology type, disaster/crisis type, and maturity level.

- Technologies: React.js, TypeScript, and SCSS.
- Worked with a team on improving and deploying the Radar Software.

Online Therapist – DEMO | CODE

A project allows users to signup/login to buy therapy sessions.

- Technologies: Figma, Reactjs, Redux Toolkit, Firebase and TailwindCSS.
- Led my Re-coded graduation project team, with responsibility of Redux Toolkit part.

Tastify (Food Order) – Ongoing Project

Tastify is web application to order food

- Technologies: Next.js 14, TypeScript, tRPC, Shadcn-ui, CMS, MongoDB, and TailwindCSS.

Iconic Places – DEMO | CODE

A project allows people to discover and share the most beautiful spots in the Istanbul.

- Technologies: Reactjs, Redux Toolkit, Firebase and TailwindCSS, Leaflet Library, Nominatim API.

Tennis Club – DEMO | CODE

A project allows users to sign up/login, book courts, find playing partners, access training sessions, and check calendar for each member and calendar for the club.

- Technologies: Nextjs 14 , Next-Auth 4, Server Actions, API Routes, MongoDB, FullCalendar API and CSS,

The Movie Database – DEMO | CODE

A project allows us to search for the newest Movies and actors from Movie Database (TMDB)

- Technologies: Vanilla JavaScript and Bootstrap.
- I led my team, assigned tasks and responsibilities to each team member.

Experience

Frontend Web Developer – UNDP (SDG AI LAB)

ONLINE _ Oct 2021 -> Jan 2022 / Fulltime (Volunteer)

- Improved the existing software (Digital Technologies Radar development).
- participated in code reviews, providing suggestions to enhance the quality of the software.
- Accomplished deployment of the existing software.
- Collaborated closely with the SDG AI Lab team to implement improvements.

LINKS: [Volunteers](#) – [Certificate](#)

IT Help Desk – Syrian Arab Red Crescent (SARC)

Syria _ Sep 2017 -> Oct 2019 / Fulltime

- Provided help desk services to meet user problems and requests.
- Installed and adjusted computer hardware, following periodic maintenance activities.
- Supported system development & improvement projects.

Courses

JavaScript (The Complete Guide 2023) / [LINK](#)

React (incl Hooks, React Router, Redux) / [LINK](#)

Understanding TypeScript / [LINK](#)

React & TypeScript – The Practical Guide / [LINK](#)

Next.js & React – The Complete Guide / [LINK](#)

React, NodeJS, Express & MongoDB – The MERN Fullstack Guide / [LINK](#)

React Native – The Practical Guide [2023] / [LINK](#)

Technical Skills

Git

HTML

SCSS

SASS

Bootstrap

Tailwind

JavaScript

React.js

Redux

Next.js 14

TypeScript

Firebase

MongoDB

React-Native

Languages

- Arabic: *Native*
- English: *Fluent*
- Turkish: *intermediate*

Soft Skill

- Decision making
- Multi-tasking
- TeamWork
